

# Frequently Asked Questions

Six answers about WebifyGlobals services, projects and consultations | 25 October 2026

## 1. What services does WebifyGlobals offer?

WebifyGlobals provides website design and development, branding and digital experiences, AI agents and business automation, custom software, and SEO and digital-growth services. Project scope is tailored to each client's needs.

## 2. Can WebifyGlobals build AI chatbots and automate business workflows?

Yes. We can discuss AI chatbots, customer enquiry assistants, workflow automation and custom integrations. Feasibility, data access, security requirements and third-party service costs are reviewed before confirming a project.

## 3. Do you work on fully custom websites and software?

Yes. We can plan and develop custom websites, web applications and software features based on your business goals, desired design, integrations and technical requirements. Final deliverables are defined in the agreed proposal.

## 4. How long does a project take?

Timelines vary depending on design complexity, functionality, content readiness, approvals and integrations. We provide an estimated schedule and milestones after reviewing your requirements. No fixed turnaround is guaranteed before scope is agreed.

## 5. How much do your services cost?

Pricing depends on project scope, complexity, deliverables, revisions, maintenance needs and any third-party subscriptions. We provide a tailored quotation or proposal after discussing your requirements.

## 6. How can I contact WebifyGlobals or schedule a consultation?

Book a 30-minute meeting at <https://calendly.com/webifyglobals/30min>, email [webifyglobals@gmail.com](mailto:webifyglobals@gmail.com), or call/WhatsApp +91 9993137839. You can share your goals and requirements so we can suggest next steps.
